

# Vanta Element™ XRF Analyzer Series

## Affordable Alloy ID and Light Element Analysis

The Vanta Element™ handheld XRF analyzer series provides elemental analysis for fast alloy grade identification and sorting. Designed without compromise on performance and durability, the series is available in two cost-effective models: the Vanta Element analyzer for basic alloy ID and the Vanta Element-S analyzer for alloy ID with light element detection.

Speed is combined with our proven Axon Technology for accurate, repeatable results. The series is built tough for harsh environments and backed by a comprehensive three-year warranty for a low cost of ownership. Convenient data management tools and optional wireless connectivity help future-proof your analyzer for Industry 4.0.
